

Helping Precision Machine Shops Be More Productive and Profitable

## Company Authorization Form

PMPA has been the voice of the Precision Machined Products Industry since 1933. Federal election law requires company authorization before PMPA can provide detailed information and/or solicit corporate personnel. PMPA may only contact shareholders and executive/administrative personnel paid on a salary basis who have policy making, managerial, professional or supervisory responsibilities. PMPA may not contact professionals who are represented by a labor organization or salaried foremen and other salaried lower-level supervisors having direct supervision over hourly employees. Companies are allowed to authorize only one trade association political action committee per calendar year. Only U.S. citizens or individuals admitted to permanent U.S. residence are allowed to participate in PMPA Political Action Committee activities.

*The PMPA Political Action Committee only supports Federal candidates who are sympathetic to the needs and concerns of the Precision Machined Products Industry.*

<b>This is to authorize the PMPA Political Action Committee to contact our corporate personnel regarding PMPA Political Action Committee activities.</b>
