## **SPEAKERS**

### **Jeff Palmer - OASIS Inspection Systems**

Jeff Palmer is Sales Manager with George Products Company, manufacturer of OASIS Inspection Systems in Middletown, DE, a company that recently celebrated its 60th anniversary. George Products has supplied machines to hundreds of companies around the world making parts inspections faster, easier and more accurate, whether it's in their QC Department or on their shop floor.

In addition to global sales growth responsibilities, Jeff works very closely with software engineers to incorporate changes to OASIS based on feedback he gets from end-users, as well as features that prospective OASIS customers are looking for. George Products takes great pride in service and support after the sale to make sure that our customer partners get the maximum return on their OASIS investment. That's probably why nearly 30% of OASIS customers own multiple machines.

### **Charlie Thai - AVP Solutions**

Charlie Thai, founder of AVP Solutions, established in 1993, specialized in developing automated inspection systems using laser, vision systems, eddy current and air gage technology.

AVP Solutions can create custom sorters to help manufactures to increase their productivity while reducing costs.

AVP Solutions enables highly-nuanced sorting and detection that was previously only possible through human intervention!

## Canada Chapter

### The 20/20 on Vision Systems

*Save Time, Save Labor, Save Money*

- DATE:** Thursday, January 23, 2014
- SPEAKER:** Jeff Palmer, George Products Company  
Charlie Thai, AVP Solutions
- LOCATION:** Royal Woodbine Golf Club, 195 Galaxy Boulevard, Etobicoke, Ontario
- TIME:** 5:30 pm - Reception; 6:00 pm - Dinner; 7:00 pm – Presentation
- COST:** \$25.00 per person

Vision systems are one of the easiest ways to find out if your parts are to specification, or not. They are used in preproduction inspection (first offs), during production, and in post-production (part sorting & final inspection). Jeff Palmer from George Products Company, distributors of the Oasis optical profile inspection system, and Charlie Thai from AVP Solutions, a reputed provider of vision product validation systems, will be presenting two separate sessions that will comprehensively cover all that you need to know about what these systems can do, and how you will benefit.

Don't miss your unique opportunity to see both ends of the vision inspection world at the same time, in the same location.

#### WHO SHOULD ATTEND:

This meeting will be of particular interest to your engineers, estimators, foremen, quality, and production personnel. Bring these folks to what promises to be a very worthwhile discussion.
