5:00 - 8:00 pm Buffet Dinner Hours

COST: \$5.00 per person (Includes technical sessions, exhibits, buffet dinner and drawing for an iPad!)

Thanks to our Event Gold Sponsor:

America's Most Convenient Bank®

Don't miss your chance to meet with the leading suppliers to the Precision Machined Products Industry! Many PMPA Technical Members are expected to exhibit with tools, brochures, catalogs, videos of larger equipment, and live software demonstrations.

This is a great opportunity for your Engineers, Operators, Purchasing Representatives, Estimators, Supervisors and Quality personnel to meet with these suppliers' technical experts one on one to discuss your unique opportunities. Supplier company representatives will be available for three hours at the Connecticut PMPA Chapter Suppliers Night.

METALLURGY

ROBOTICS

Prior to the opening of the exhibit tables, Miles Free, PMPA's Director of Technology and Industry Research and representatives from New England Tool Corp and FANUC America Corporation will speak on a couple of technical subjects.

"Metallurgy for the Non-Metallurgist" - Machinists understand that different materials machine differently. In this session Miles Free will offer attendees a basic review of the metallurgical factors, including chemistry, microstructure, processing, and thermal treatments that influence machining performance in our shops.

"Robotics and Automation in Manufacturing" - This presentation by Ziggy Tomic and CJ Bienia of New England Tool Corp, and Ed Rooney of FANUC America Corporation will introduce the basic concepts, practices and applications to attendees. A basic overview of the different types and styles of robots will be discussed. In addition, current processes normally being completed via manual labor will be examined to show how the introduction of robotics and automation can help companies gain a competitive advantage.

*Raffle Prize:
an iPad!*

Win an iPad! - You have the chance to win an iPad just by visiting with the exhibitors. Just have 20 exhibitors stamp the card that will be included within your welcome packet. Turn your completed card in to the registration table outside of the exhibit hall and your name will be included in the drawing.
