Limited Availability: This is a first come first served offer. Please do not delay and respond using the registration information below!

ZPS America has announced that they have 12 openings in their training seminar entitled "Operation and Troubleshooting ZPS Cam Machines." This training will also cover machines labeled "Euroturn." The seminar will take place on Tuesday, December 4th and Wednesday, December 5th. Each day will run from 8:30am – 4:30pm. Breakfast, lunch, and dinner will be provided.

This is a hands-on class that will combine both classroom and in-shop training. Attendees will run machines to immediately translate what they learn in class to the shop. Additionally, all participants will be introduced to the basics of repairing machinery and will be walked through the general steps of a successful maintenance program.

The seminar is geared towards beginners and intermediate operators, setters, and maintenance technicians. All attendees will receive a training manual and a certificate upon their successful completion of the course.
