

Press Release

FELSOMAT USA ANNOUNCES INNOVATION DAY!

SCHAUMBURG, ILLINOIS – May 11, 2021 – With the push to automation and e-mobility, the automotive and manufacturing industries are being forced to innovate at rates that have never been seen before. Don't be left behind. Make sure you're ready to take on the future with innovative automated systems! Join Felsomat USA on Thursday, June 10 from 11 am – 7 pm for our Innovation Day taking place at our US headquarters in Schaumburg, IL. We're excited for the return to in-person events, and we can't wait for you to explore all of the innovations we've been working on over the past year.

On our shopfloor, we'll be featuring nine state-of-the-art automated systems including crankshaft, pinion, transmission, driveline differential welding, and high volume hobbing. In addition to our innovative live machining demonstrations, we'll be hosting informative sessions on our e-mobility portfolio while providing drinks, a light lunch, and dinner. Join us to see how you can improve your systems, and catapult into the new era of automated manufacturing.

To register or learn more about Felsomat USA Innovation Day, visit our event website, www.felsomatinnovationday.com. We look forward to seeing you there!

ABOUT FELSOMAT USA

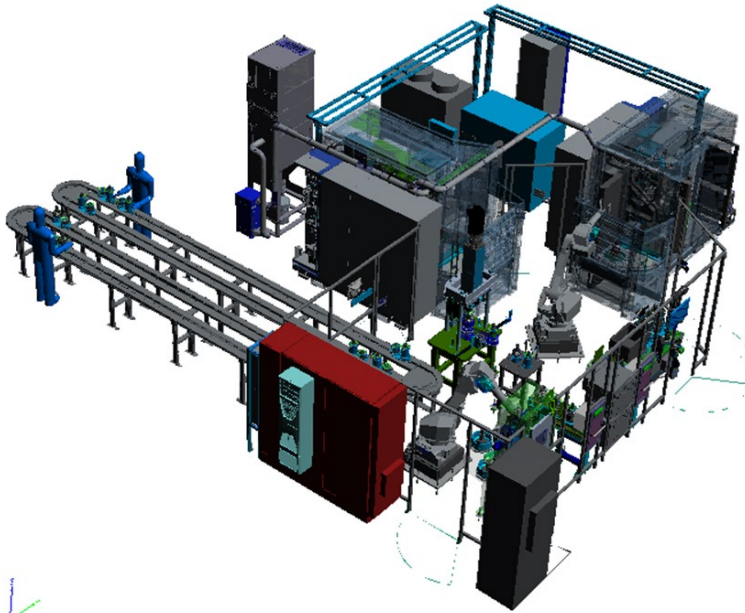

At Felsomat, our best-in-class automation solutions are designed and developed with innovation in mind. We understand and embrace our customers constant need to change and we help them achieve these goals with our flexible automation solutions. This flexibility and innovation ensures our customers not only remain competitive, but lead.

IMAGES

Robotic_Load_Cell.jpg

We'll be presenting our low cost, flexible robotic loader – BAUSTEIN, shown with different configuration packages.

Laser_Welder.jpg

Our state-of-the-art laser welder for RDU and PTU parts will be running parts, live on our shop floor.

Alloy Loader.jpg

Our alloy loader is the perfect system to load gears from a conveyor, then deburr and stack them on alloys, preparing them for heat treatment.
