The first PMPA Management Update Conference was held in 1975 and has been an annual offering of the Association ever since. The concept behind the Update Conference is to “update” the audience on issues of concern to owners and managers of small and mid-size metalworking companies. The Conference is typically held over a two-day period (Friday/Saturday). Group meals and receptions are included on the program to further the naturally occurring networking and sharing of information which is a hallmark of PMPA members.

From year to year, different programming formats may be offered — general business sessions, teambuilding and networking sessions, Round Table discussion tables and breakout sessions covering current trends on economics, management, human resources, OSHA regulatory policies and political updates.
