

ENERGY MADE HUMAN

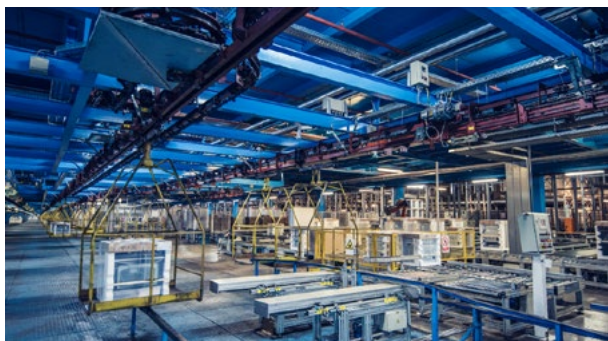

MANUFACTURING

RAISE YOUR ENERGY IQ

5 is one of the largest energy advisory firms and supports thousands of organizations across North America. Backed by extensive supplier experience, our team understands the risks on both sides of every contract, allowing us to deliver objective, data-driven advice and smarter energy solutions.

OUR SERVICES

ENERGY SUPPLY & RISK MANAGEMENT: Specializing in electricity and natural gas procurement, with a focus on strategic hedging and competitive sourcing.

DEMAND-SIDE MANAGEMENT: Focusing on demand response programs, energy efficiency, load optimization, and peak load management.

SUSTAINABILITY INITIATIVES: Driving sustainability through renewable energy solutions like renewable energy credits (RECs), on-site solar, and community solar.

CLIENT SUPPORT & COMPLIANCE: Offering comprehensive support in budgeting, bill audit and review, as well as navigating regional incentives and regulations.

COMPREHENSIVE APPROACH

5 takes a comprehensive approach to energy management for manufacturing clients, providing each one with a dedicated team of analysts and advisors who deliver best-in-class solutions.

Depending on their operations and location, manufacturing clients may benefit from services such as:

- Strategic hedging
- Predominant use/tax exemption studies
- Power factor penalties
- Coincident peak management
- Creative Demand Response solutions ensuring reliability
- Flexible product and contract term options for variability
- Sustainability strategy, implementation, and marketing
- On-site generation

WHY CHOOSE 5?

5 helps a wide variety of manufacturing clients including organizations that produce automobile parts, aluminum, insulated foam, frozen food, batteries, printers, plastics, and more.

5's clients also gain access to our proprietary Level5 platform, giving you unmatched visibility into market trends, pricing, and your organization's energy data.
